Software Engineer experienced in building and maintaining production web applications and SaaS products using Next.js, React, TypeScript, JavaScript and Node.js. Experienced with production codebases, REST APIs, relational and non-relational databases, Git-based development workflows, code reviews, debugging and deployment environments. Currently developing production e-commerce systems and internal business applications.

TECHNICAL SKILLS:

Languages: TypeScript, JavaScript, Python

Frontend: Next.js, React.js, Tailwind CSS, Shadcn UI, Motion, GSAP

Backend: Node.js, Express.js, REST APIs, FastAPI

Databases: PostgreSQL, MongoDB, MySQL

DevOps / Cloud: Docker, CI/CD, GitHub Actions, AWS, AWS Amplify, VPS, Linux

Engineering: Git, GitHub, Branching, Pull Requests, Code Review, Postman, Debugging

PROFESSIONAL EXPERIENCE:

Software Engineer

DavidaBrand - Narayanganj, Dhaka

April, 2026 - Present

- Develop and maintain production web applications using Next.js, JavaScript & TypeScript
- Work with databases, authentication, validation and application business logic
- Debug production issues and improve application reliability and performance
- Use Git/GitHub for version control, branching and code management
- Contribute to internal systems and automation supporting ecommerce operations

Junior MERN Stack Developer

AlgoSoft Technologies Limited - Narayanganj, Dhaka

Sep, 2025 - Feb, 2026 [Full-time]

- Developed full-stack features using React, Node.js, Express.js and MongoDB
- Integrated REST APIs and handled database operations
- Debugged application and API issues using Postman and developer tools
- Used Git/GitHub for branching, version control and collaborative development
- Contributed to feature development, bug fixes and application improvements

Frontend Developer

Chatmonster - Edmonton, AB, Canada

Jul, 2024 - Sep, 2025 [Contract]

- Built production-ready SaaS products using modern React practices
- Collaborated in monorepo architecture development
- Worked closely with senior engineers on complex features

Frontend Web Developer

Amraotech - Boston, USA

Nov, 2023 - Jun, 2024

- Developed scalable frontend applications using React
- Collaborated with design teams to build intuitive user interfaces
- Participated in code reviews to maintain code quality standards

PROJECTS:

DavidaBrand E-commerce Platform:

davidabrand.com

- Develop and maintain a production e-commerce platform using Next.js and TypeScript
- Built and maintained checkout, order-processing, product and customer workflows
- Integrated REST APIs, server-side business logic and PostgreSQL database operations
- Implemented Meta Pixel, Meta Conversions API (CAPI) and GTM server-side tracking integrations

- Tech: Next.js, TypeScript, Node.js, PostgreSQL, REST APIs, Git/GitHub

Posh Print:

poshprint.co

- Built a scalable print-on-demand platform from the ground up
- Built complex management and order processing systems
- Tech: Next.js, TypeScript, Tailwind CSS

Zulu Community Toddlers Platform:

this-is-app-one.vercel.app

- Developed a community-focused volunteer learning platform serving a South African Zulu community
- Implemented multilingual/localized application experiences and intuitive navigation
- Integrated API-driven functionality and handled dynamic application data
- Focused on mobile responsiveness, accessibility, maintainable code and usability
- Tech: Next.js, TypeScript, React.js, Tailwind CSS, REST APIs, Git/GitHub

EDUCATION:

Bachelor's in English

National University Bangladesh

2020–2025

LANGUAGE PROFICIENCY:

- **Bengali:** Native
- **English:** Intermediate Fluency
